

SANDAL PLC

LAUNCH OF NEW PRODUCTS AT ED&I EXPO

The Board of Sandal Plc, the designer, developer and manufacturer of electronic products is pleased to announce the launch of new Energenie MiHome products at the Electrical Design and Installation Expo ("ED&I") being held at the NEC Birmingham on 6 and 7 September 2017.

The products being launched include a new room thermostat which helps control the boiler and integrates with the Energenie MiHome radiator valves to produce extra energy and cost savings to the user. In addition, two new light switches, a two way switch and a dimmer are being introduced available in white and four metal finishes, which completes the range of Energenie MiHome light switches.

With an anticipated 2000+ visitors, ED&I Expo provides an opportunity for designers, installers, suppliers and manufacturers to showcase what the industry has to offer to clients and specifiers.

Alan Tadd, CEO of Sandal said "Attending the ED&I Expo is an important step as part of our launch strategy into the Electrical, Plumbing and Heating wholesale/installation markets and provides us with a unique opportunity to demonstrate our latest products to this key target audience."

This announcement contains information which, prior to its disclosure, was inside information for the purposes of Article 7 of EU Regulation 596/2014.

The directors of Sandal Plc accept responsibility for the contents of this announcement.

Notes to editors:

Sandal plc commenced business in 1996 and joined NEX in March 2015. The Company designs, develops and manufactures consumer electronics products. Its business is divided into two distinct product groups, PowerConnections, a long established wholesaler and reseller of a successful and patented range of converter plugs and power cables, and Energenie, which sells a newer product

range that includes energy saving products, portable charging devices and the new Energenie MiHome range of products aimed at the "Home Automation" and "Internet of Things" marketplace.

The range of Energenie MiHome home automation products makes the remote operation of everyday household appliances and energy monitoring more accessible through integration with smartphone and tablet connectivity. The Energenie MiHome range is also integrated with the major players in the home automation market including Google Nest and Amazon Echo. Energenie MiHome products are available through a number of mainstream retailers including Amazon, Argos and Sainsbury's. In addition Energenie also offers Eco and electrical, travel and energy saving products for homes and offices, reducing energy usage and the Home Automation sector. It has store listings for its current products with several large retailers including Homebase, Maplin, Amazon, Screwfix, Toolstation and ASDA.

PowerConnections is a supplier to customers, in the UK and abroad, of single-phase electrical connection products. The products are manufactured in three partner factories in the Far East and have distributors worldwide for its range of patented converter plugs. The Company's product portfolio consists of International Power Leads, Rewireable Plugs, Converters and Connectors. These products are stocked in the Far East, Australia and UK.
